U6 Coach Report Regarding Dominant Players

U6 Coaches are asked to identify the players on their team that dominate the game or that contribute significantly to the outcome of the game. The purpose of identifying these players is to help balance the U8 teams for the next fall season. Please be assured that your current U6 players will not be compared to U8 players. The online eAYSO system balances teams by combining the age of the player with the player's skill rating and then distributes them evenly on teams.

Listed below are criteria to consider when determining if you have a U6 player that should be identified.

1. A dominate player who can have a significant impact on a game.
2. A player who is capable of both offense and defense.
3. Has a basic understanding of the rules of the game.
4. Is aggressive and engaged in the game for an extended period of time.

If you have one or more of these players on your team, please indicate their names in the table below, and return this form to your DCA as soon as possible.

We appreciate your time and efforts as a volunteer AYSO coach!
